

TECHNICAL DATA SHEET

DIESEL INJECTORS CLEANER

PRODUCT FEATURES

Designed for the latest generation of engine. Especially TDI, HDI, CDI, DCI, JTD. Cleans and removes deposit quickly from injectors and whole common rail fuel system.

- Improves the lubricity of the diesel fuel
- Removes deposit on injectors without disassembling the system
- Cleans the entire fuel system
- Prevents rust on injectors from forming

Cleans and protects injectors from deposit resulting in:

- Increased fuel economy
- Improved power and acceleration
- Reduced emission
- Excellent DI, common rail performance
- Reduced ignition delay
- Reduced engine noise
- Reduced smoke emission
- Lower engine vibration

Compatible with biofuels. Suitable for catalytic systems and Start&Stop systems.

CHEMICAL AND PHYSICAL PROPERTIES

Appearance liquid
Colour Light brown
Odour typical
Density at 20°C 0,895 g/cm³
Viscosity (40°C ASTM D1298) 9 mm²/s

The reported data are subject to normal manufacturing tolerances

DIRECTIONS FOR USE

For best results use one bottle in a tank ($50 \div 60$ litres of diesel fuel). Repeat every 5000km.

SHELF LIFE

3 years minimum. Store tightly closed in the original container in a dry area at temperatures between 5 and 40°C. Avoid direct sunlight.

PACKAGING

PVC bottle size: 250 ml

Product code: 9067 – 1D429067 Languages on label: EN/DE/FR

ADDITIONAL INFORMATION

For further information about product safety, please consult Safety Data Sheets.
