PETRONAS

PETRONAS Sprinta T300

Designed for Advanced Performance for 2-stroke Motorcycles

Motorcycle riders rely heavily on their bikes for work or leisure. Stress to the motorcycles can easily built up within short period of time, even under normal riding conditions. This is due to motorcycle engines generally work harder than car engines and subject to tremendous stress!

Description and Applications

PETRONAS Sprinta T300 is specially formulated with low-ash technology to ensure exceptional cleansing performance and engine protection for daily riding conditions. It helps to deliver better rides, giving your bike a longer life.

PETRONAS Sprinta T300 is suitable for all types of 2-Stroke gasoline motorcycle engines with automatic oil-injection or premix systems. It is suitable for motorcycles manufactured by leading Japanese, European and American manufacturers. Also applicable for other small 2-stroke engines such as chain saw and lawn mower.

Benefits

Delivers:

- Superior detergency control to eliminate damaging deposits, protecting engines against exhaust system blocking.
- Low-ash technology effectively reduce pre-ignition and catalyst deterioration, helps delivering superior engine efficiency and power.
- Efficient cleansing performance and burning produces extremely low exhaust smoke.
- Superior mixing with leaded and unleaded petrol.

Approvals, Specifications and Recommendations

PETRONAS Sprinta T300 meets and exceeds below performances:

Approvals and Specifications:

- API TC
- JASO FB

Note: Always consult your owner's manual to check recommended viscosity grade and specifications for your specific vehicle

Typical Physical Data

Parameters	Method	Unit	Typical Value
Density @15°C	ASTM D4052	g/cm ³	
ASTM Colour	ASTM D1500	-	
Kinematic Viscosity @100°C	ASTM D445	mm ² /s (cSt)	
Flash Point COC	ASTM D92	°C	
Pour Point	ASTM D97	°C	
CCS(-30°C)	ASTM D5293	mPa·s	
TBN	ASTM D2896	mgKOH/g	

All technical data is provided for reference only. These characteristics are typical of current production. Whilst future production will conform to PLI's specification, variations in these characteristics may occur.

Health, Safety and Environment

This product is unlikely to present any significant health and safety hazards when used in the recommended application. Avoid contact with skin. Wash immediately with soap and water after skin contact. Do not discharge into drains, soil or water.
