

TUTELA TRANSMISSION ATF 6K Cod. 1465

DESCRIPTION

Tutela Transmission ATF 6K is a fully synthetic lubricant and represents the highest technology answer for the request of modern heavy duty automatic transmissions.

Tutela ATF 6K is able to assure an optimal lubrication and prevents the excessive erosion of the transmission maintaining its characteristics for all the operative interval.

It guarantees the extended drain and therefore of the maintenance guaranteeing a substantial increase of the productivity.

CHARACTERISTICS

- | Excellent antiwear and long-lasting protection
- | Optimal resistance to the oxidation
- | High viscosimetric stability
- | It improves performance and fuel economy
- | It keeps transmission clean to extended life even under severe driving condition.

ADVICE ON USE

Replace according to the manufacturer's instructions

RECOMMENDED BY

IVECO

TECHNICAL DATA

IVECO 18-1807 CLASSE AG3/IV, CONTRACTUAL
TECHNICAL REF. N°I806.D08,
ALLISON TES 295 Performance
